

Preferred Pals

A familiar face you can count on

Is there a Papa Pal you really enjoy spending time with? Make them your Preferred Pal so you can see them again and again!

Many Papa members have multiple Preferred Pals, and it's common for one great visit to be all it takes to make the connection.

Advantages of having a Preferred Pal

Priority access

They're the first to know when you schedule a visit and can accept it before other Papa Pals.

Stronger connections

Regular visits with the same Papa Pal go beyond assistance; they pave the way for deeper trust and meaningful, long-lasting relationships.

How to set up a Preferred Pal

Ready to experience the benefits of a Preferred Pal? When scheduling your next visit, simply inquire with the Papa Member Experience Specialist about setting up a Preferred Pal. As long as the Papa Pal is available at your requested time, they'll be there!

"My Papa Pal always has time to listen to me and laugh with me. We get really deep, and by the time I get home from our visits, I'm happy because she has me laughing. It's really good to have a friend like that to talk to. Health wise, I think that helps me a lot."

Manuela, Papa member
